Join Sarsha Hope, women’s embodiment coach and founder of Somatic Dance International, for a transformative somatic dance workshop exclusively for women. Together, we’ll explore the Virgin and the Harlot archetypes—distorted through patriarchy and colonization. These archetypes represent forces within the feminine psyche, often seen as opposites.

Through somatic movement and embodiment practices, we’ll reconnect with these archetypes, not as enemies, but as allies. We’ll honor both the wildness and innocence of our nature, celebrating their unity and reclaiming the wisdom of our bodies, rewriting the narrative of “good” versus “wild.”

It's an exciting time to join the revolution. The government's attacks on Māori have fueled Aotearoa's oldest and strongest movement. Nearly a fifth of the population, Māori challenge a capitalist state that conflicts with their communal, eco-harmonious way of life.

This workshop explores decolonisation in 2025 and why supporting Tino Rangatiratanga (Māori sovereignty) benefits everyone.

Kia ora, we are Samah and Pere Huriwai-Seger, living on a papakāinga in Otaua, Northland. Through Aotearoa Liberation League (ALL), we create media on colonisation, capitalism, and support grassroots movements.

For women raised in a patriarchal culture, expressing what your being truly wants can be challenging. You may have learned to sense and prioritize the wants of others, putting your own desires aside for safety. This strategy, while protective, can create confusion in your life.

In this workshop, we partner up and repeatedly ask, “What do you want?”—helping each woman move past defense mechanisms and stories to connect with her true feelings. This safe, women-only space allows you to explore what it’s like to be asked and to speak your wants. All women are welcome.
